

PEAK Scissors lifts, the same as PEAK other lifts, adhere to the principle of safety, durability, convenience and best performance. By the strict control of design, material-selection, manufacturing and examination, assure PEAK Scissors lifts offer you the best quality.

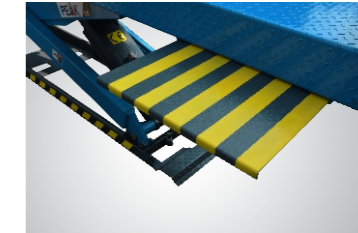

**FEATURES**

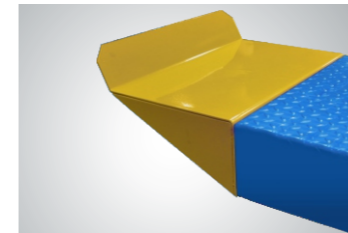

- 2-dual synchronous cylinders are applied to assure the lifting level on both platforms.
- Electro-air control system, safety self lock mechanism.
- Skid proof diamond paltform to avoid skidding.
- Heavy duty design, the X serial scissors lifts use large steel tube to make it strong and assure the runways remain level during working.

◀ Electro-air Safety Device

◀ Service shelf for more effective working environments.

◀ Optional extension Kits to extend the platform 300mm part No.PX003

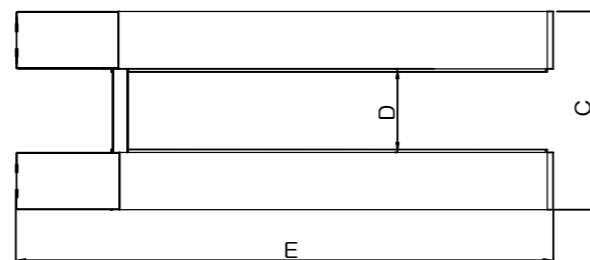

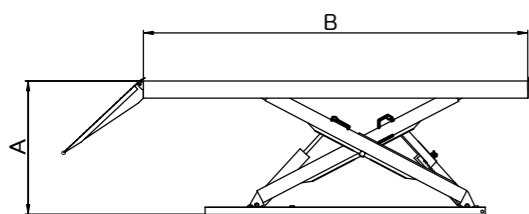

◀ Optional airline kits.Easy and convenient installation with all models of rolling jacks with a pneumatic pump Kits No.:PX004

◀ Optional rolling Jacks  
J6H: manual hydraulic type 2.8 T  
J6A: pneumatic hydraulic type 2.8 T  
RJ-8A:pneumatic hydraulic type 3.5 T

◀ Optional LED lighting: 24V LED light. Kits No.:PX010
